Every school in California is required by state law to publish a School Accountability Report Card (SARC), by February 1 of each year. The SARC contains information about the condition and performance of each California public school.

• For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.

• For additional information about the school, parents and community members should contact the school principal or the district office.

I. Data and Access

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., state Academic Performance Index [API], federal Adequate Yearly Progress [AYP]), test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Additional Information

For further information regarding the data elements and terms used in the SARC see the 2012-13 Academic Performance Index Reports Information Guide located on the CDE API Web page at <http://www.cde.ca.gov/ta/ac/ap/>.

School Description and Mission Statement (School Year 2012-13)

Fairview Elementary is a comprehensive K-5 school that is located in central Fairfield just west of the downtown area. Built in 1954, Fairview is one of the oldest schools in Fairfield. Student enrollment is at approximately 610 students. It also includes a regular education state pre-school, a kindergarten Transition to the Academic program (TAP) for autistic children, and two transitional kindergarten classes. The student population is approximately 64% Hispanic, 13% African-American, 13% White, 3% Filipino, 1% Asian and 5% Other. Ninety percent of our students enjoy a free/reduced lunch through the National School Lunch Program. About 43% percent of our students are designated English Learners (EL). Students with disabilities comprise about 10% of the population. For the first time in four years, we did not grow our API. We did not meet AYP requirements either. Our API of 748 is still higher than the 661 API we had when we started our consistent achievement gains four years ago. Our mission is to ensure that all students reach high levels of academic proficiency while developing into responsible, productive members of the community. We believe that all students should be educated in a way that prepares them for college. We support our mission by being committed to research-based "best instructional practices", using frequent assessment and data to drive our instruction, collaborating around student achievement and improving performance, valuing each student as an individual, providing a safe and supportive learning environment, and reaching out to our parent community for their support and participation in the process of educating the children.

Opportunities for Parental Involvement (School Year 2012-13)

The Fairview parent community was involved in many activities during the school year. In addition to Back-to-School Night in September, the school sponsored three family nights- Reading Night, Technology Night and Science Night. All three events were well attended. The Fairview PTC continued to thrive and grow. The PTC had two major fund raisers and was able to fund three student assemblies. Officers are in place for 2013-14 as we continue to grow this group and its impact on students. We are hoping to have a yearbook and a spring carnival this coming year.

III. Student Performance

Standardized Testing and Reporting Program

The Standardized Testing and Reporting (STAR) Program consists of several key components, including:

- California Standards Tests (CSTs), which include English-language arts (ELA) and mathematics in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science in grades eight, and nine through eleven.
- California Modified Assessment (CMA), an alternate assessment that is based on modified achievement standards in ELA for grades three through eleven; mathematics for grades three through seven, Algebra I, and Geometry; and science in grades five and eight, and Life Science in grade ten. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations.
- California Alternate Performance Assessment (CAPA), includes ELA and mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations.

The assessments under the STAR Program show how well students are doing in relation to the state content standards. On each of these assessments, student scores are reported as performance levels.

For detailed information regarding the STAR Program results for each grade and performance level, including the percent of students not tested, see the CDE STAR Results Web site at <http://star.cde.ca.gov>.

Standardized Testing and Reporting Results for All Students - Three-Year Comparison

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

California High School Exit Examination

The California High School Exit Examination (CAHSEE) is primarily used as a graduation requirement. However, the grade ten results of this exam are also used to establish the percentages of students at three proficiency levels (not proficient, proficient, or advanced) in ELA and mathematics to compute AYP designations required by the federal Elementary and Secondary Education Act (ESEA), also known as No Child Left Behind (NCLB).

For detailed information regarding CAHSEE results, see the CDE CAHSEE Web site at <http://cahsee.cde.ca.gov/>.

California Physical Fitness Test Results (School Year 2012-13)

The California Physical Fitness Test (PFT) is administered to students in grades five, seven, and nine only. This table displays by grade level the percent of students meeting the fitness standards for the most recent testing period. For detailed information regarding this test, and comparisons of a school's test results to the district and state, see the CDE PFT Web page at <http://www.cde.ca.gov/ta/tg/pf/>.

Grade Level	Percent of Students Meeting Four of Six Fitness Standards	Percent of Students Meeting Five of Six Fitness Standards	Percent of Students Meeting Six of Six Fitness Standards

7	N/A	N/A	N/A
9	N/A	N/A	N/A

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

IV. Accountability

Academic Performance Index

The Academic Performance Index (API) is an annual measure of state academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. For detailed information about the API, see the CDE API Web page at <http://www.cde.ca.gov/ta/ac/ap/>.

Academic Performance Index Ranks - Three-Year Comparison

This table displays the school's statewide and similar schools' API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest ten percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest ten percent of all schools in the state.

The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing ten schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

API Rank	2010	2011	2012
Statewide	1	3	3
Similar Schools	1	5	7

Academic Performance Index Growth by Student Group - Three-Year Comparison

Group	Actual API Change 2010-11	Actual API Change 2011-12	Actual API Change 2012-13
All Students at the School	54	27	-30

Socioeconomically Disadvantaged	54	34	-25
English Learners	46	41	-30
Students with Disabilities			

Note: 'N/D' means that no data were available to the CDE or LEA to report. 'B' means the school did not have a valid API Base and there is no Growth or target information. 'C' means the school had significant demographic changes and there is no Growth or target information.

Academic Performance Index Growth by Student Group - 2013 Growth API Comparison

This table displays, by student group, the number of students included in the API and the 2013 Growth API at the school, LEA, and state level.

Group	School	Growth API	LEA	Growth API	State	Growth API

Students with Disabilities	54	569	1,782	606	527,476	615

Adequate Yearly Progress

The federal ESEA requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in ELA and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

For detailed information about AYP, including participation rates and percent proficient results by student group, see the CDE AYP Web page at <http://www.cde.ca.gov/ta/ac/ay/>.

Adequate Yearly Progress Overall and by Criteria (School Year 2012-13)

AYP Criteria	School	District
Overall	No	No
Participation Rate - English-Language Arts	Yes	Yes
Participation Rate - Mathematics	Yes	Yes
Percent Proficient - English-Language Arts	No	No
Percent Proficient - Mathematics	No	No
API	No	Yes
Graduation Rate	N/A	Yes

Federal Intervention Program (School Year 2013-14)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. For detailed information about PI identification, see the CDE PI Status Determinations Web page: <http://www.cde.ca.gov/ta/ac/ay/tidetermine.asp>.

Other					0	0	0	0	0	0	0	0

* Number of classes indicates how many classes fall into each size category (a range of total students per class).

School Safety Plan (School Year 2012-13)

The school safety plan includes procedures for all types of emergencies (earthquakes, intruders, fires, etc) and was updated and shared with staff and practiced throughout the school year. Staff and students know what to do in the case of the aforementioned emergencies. The school safety plan also includes measures to handle student safety/discipline. We have clear school rules and procedures for how to handle students who misbehave. There is a flow chart that dictates teacher managed behaviors and office managed behaviors. We also have a positive referral system that rewards students who behave. We have done some anti-bullying work with a consultant and our academic coaches in addition to having an annual assembly about bullying.

Suspensions and Expulsions

Rate*	School 2010-11	School 2011-12	School 2012-13	District 2010-11	District 2011-12	District 2012-13
Suspensions	0.35	5.8	10	15.53	19.7	20.6
Expulsions	0	0.4	0	0.6	0.4	0.2

* The rate of suspensions and expulsions is calculated by dividing the total number of incidents by the total enrollment.

VI. School Facilities

School Facility Conditions and Planned Improvements (School Year 2013-14)

Fairview Elementary is located on First Street in the City of Fairfield.

General

The District takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, the District uses a facility survey instrument developed by the State of California Office of Public School Construction. The results of this survey are available on this site. Below is more specific information on the condition of the school and the efforts made to ensure the students are provided with a clean, safe, and functional learning environment.

Age of School Buildings

Fairview Elementary was built in the mid 50's. This facility consists of 29 classrooms, kindergarten classrooms with attached play area, and a library-media center wired for technology, support offices, restrooms, and a multi-purpose room that includes a full service kitchen. The facility was renovated for power and safety upgrades in 1993. In addition, the campus includes two separate play apparatus areas, a large blacktop, and field area for recreation. The school also includes a 1,920 square foot Pre-Kindergarten facility addition placed in 1999 that was uniquely designed for children with special needs. The Pre-Kindergarten building includes a fenced play area with separate playground equipment designed for the kindergarten grade level. In September 2006, a new Child Development Center Building was completed. This addition includes two 1,350 square foot buildings are located in an enclosed area and include a modern stucco exterior, pitched roofs and an up to date interior designed specifically for teachers and students. This facility includes plenty of storage space for teachers, built-in student cubbies, a separate teacher's prep room, a teaching wall, and a carpeted sitting area for story time. The new classrooms also have restrooms with child-size toilets and sinks. This addition to the campus allows a great flow of children for before and after school activities as well as the ability to concurrently teach pre-kindergarten students. During the summer of 2007, the administrative offices were remodeled to allow for better use of space and to provide a more organized service to the students, parents, visitors and staff. The glass front doors and windows were replaced and a service Kiosk built to provide immediate service to visitors. The improvements also included new ornamental fencing for better student safety as well as aesthetic value.

Maintenance and Repair

District maintenance staff ensures that repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

Cleaning Process and Schedule

The District governing board has adopted Strategic Goals, which include cleaning standards for all schools in the District. (Strategic Goal #4). These standards are available at any school site and the District Office. The District's Operations Department works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school, along with the supervision of the site principal.

Deferred Maintenance Budget

The District participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair/replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems.

Deferred Maintenance Projects

There has been \$350,000 budgeted for Deferred Maintenance projects at this site during the 2013-14 school year.

Modernization Projects

There are no modernization projects planned at this site during the 2013-14 school year. A modernization project was completed at this site in 1998. Please see the description of recent work under the heading "Age of School Buildings."

New Construction Projects

There are no new construction projects planned at this site during the 2013-14 school year.

Note: "Misassignments" refers to the number of positions filled by teachers who lack legal authorization to teach that grade level, subject area, student group, etc.

* Total Teacher Misassignments includes the number of Misassignments of Teachers of English Learners.

Core Academic Classes Taught by Highly Qualified Teachers (School Year 2012-13)

The federal ESEA, also known as NCLB, requires that core academic subjects be taught by Highly Qualified Teachers, defined as having at least a bachelor's degree, an appropriate California teaching credential, and demonstrated core academic subject area competence. For more information, see the CDE Improving Teacher and Principal Quality Web page at <http://www.cde.ca.gov/nclb/sr/tq/>.

Location of Classes	Percent of Classes In Core Academic Subjects Taught by Highly Qualified Teachers	Percent of Classes In Core Academic Subjects Not Taught by Highly Qualified Teachers
This School	100	
All Schools in District	96	4
High-Poverty Schools in District	96	4
Low-Poverty Schools in District	96.49	3.51

Note: High-poverty schools are defined as those schools with student eligibility of approximately 40 percent or more in the free and reduced price meals program. Low-poverty schools are those with student eligibility of approximately 39 percent or less in the free and reduced price meals program.

VIII. Support Staff

Academic Counselors and Other Support Staff (School Year 2012-13)

Title	Number of FTE* Assigned to School	Average Number of Students per Academic Counselor

Note: Cells shaded in black or with N/A values do not require data.

* One Full Time Equivalent (FTE) equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time.

IX. Curriculum and Instructional Materials

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2013-14)

This section describes whether the textbooks and instructional materials used at the school are from the most recent adoption; whether there are sufficient textbooks and instruction materials for each student; and information about the school's use of any supplemental curriculum or non-adopted textbooks or instructional materials.

Month and year in which data were collected: January 2014

Core Curriculum Area	Textbooks and instructional materials/year of adoption	From most recent adoption?	Percent students lacking own assigned copy

Note: Cells shaded in black or with N/A values do not require data.

Supplemental/Restricted expenditures come from money whose use is controlled by law or by a donor. Money that is designated for specific purposes by the district or governing board is not considered restricted. Basic/unrestricted expenditures are from money whose use, except for general guidelines, is not controlled by law or by a donor.

For detailed information on school expenditures for all districts in California, see the CDE Current Expense of Education & Per-pupil Spending Web page at <http://www.cde.ca.gov/ds/fd/ec/>. Types of Services Funded (Fiscal Year 2012-13)

Fairview's exit from Program Improvement status ended its relationship with Supplemental Educational Services (SES) through outside vendors under NCLB (No Child Left Behind) provisions. Fairview was able to provide several intervention programs for students using our own staff during the 2012-13 school year. On-going after school interventions were provided students in grades K-5 in ELA and math throughout the school year. These groups were flexible and the interventions changed up every 4-6 weeks. Grades 4 and 5 provided a three week CELDT prep "boot camp" to our English learner students running up to the administration of the CELDT test in October. Additionally an eight day summer session was held for our lowest performing students in grades K-5 with the focus being science, non-fiction reading and math. Students in grades K-2 participated in a field trip to the Sacramento Zoo as a culminating activity. Students in grades 3-4 visited the California Academy of Sciences in San Francisco.

Professional Development

This section provides information on the annual number of school days dedicated to staff development for the most recent three-year period.

Fairview has averaged three days of professional development a year for the past three years. Fairfield-Suisun Unified School District provides professional development activities based on a continuum of teacher needs. Teachers new to the profession participate in the Beginning Teacher Support and Assessment (BTSA) induction program for two years. New teacher orientation is conducted to introduce teachers to the district's programs, policies, procedures and curriculum. Support providers assist teachers eligible for BTSA support. Experienced teachers in need of assistance may receive guidance from Consulting Teachers as part of the Peer Assistance and Review (PAR) program. Educators striving to take a deep look at their practice may work towards National Board Certification. Professional development activities also include training in core curriculum areas, delivery strategies, and assessment analysis. Administrators and teachers are provided standards based professional development in literacy and mathematics curricula. This past year, weekly paid two hour sessions of professional development began at FV as per the district's PI schools' plan. Professional development was provided in curriculum and instruction, technology, data analysis, anti-bullying, teaching special needs students more effectively, et. al. We had off-site providers, FV staff, academic support teachers, and others providing the PD.
